SUMMARY

Hello, I am a front end developer and informatics engineering student with an interest in programming, especially web app development. I started my coding journey by attending the Hacktiv8 bootcamp as Front End React developer. I'm excited to develop my skills further and make a meaningful contribution to the technology industry.

EDUCATION

Hacktiv8 **Jakarta, Indonesia**
Front End React Native program(FERN) ([Transcript](#)) *August 2024 – November 2024*

Universitas Bina Sarana Informatika **Bekasi, Indonesia**
Faculty of Informatics Engineering *2023 – 2027 (expected)*

EXPERIENCE

(Google Developer Student Club) GDSC

Participant of HackFest 2024 as Hipster *December 2023 - March 2024*

- Designing user interfaces (UI/UX) that are visually appealing and easy to use.
- Aligning product designs with user needs.
- Managing the creative and artistic aspects of the product.
- Understanding design and user experience trends.

SKILLS

Language: JavaScript, TypeScript

Front End: React JS, JavaScript, HTML & CSS, Next JS, Redux JS, TanStack Query, Shadcn, Ant Design

PROJECTS

[Infast](#) *November 2022*

An investment tracking application that helps users explore, monitor, and manage various financial assets efficiently and effortlessly. With accurate market data, Infast provides asset performance analysis, market trends, risk evaluation, and cost insights.

Tech stack: HTML & CSS, TypeScript, Next Js, Tailwind, Shadcn, Ant Design, API (Alpha Vantage, CoinGecko, Trading View, Polygon)

[Daily Bulletin](#) *November 2022*

The Daily Bulletin website provides readers with curated, trending news across various topics, including arts, business, education, food, sports, technology, and world news. You can easily search for trending news or explore stories tailored to your interests.

Tech stack: HTML & CSS, TypeScript, Next Js, Tailwind, API (The New York Times)

[Beaute](#) *November 2022*

Beauté is a platform dedicated exclusively to beauty products. It offers two client roles: User for shoppers and Seller for vendors. With a clean and elegant interface, Beauté makes it easy for users to log in, including a Google sign-in option, and provides a simple registration process for new users. Tailored to the beauty industry, the platform focuses on user-friendly navigation and an attractive design.

Tech stack: HTML & CSS, JavaScript, React Js, Tailwind, Redux js, TanStack Query, API (Hacktiv8), Ant Design

Todify - Todo Web App

August 2022

A todo list web page is a website can create, delete, update your todo.

Tech stack: HTML & CSS, JavaScript, React Js, Json-server

Weather Web App

August 2022

This project delivers accurate weather information by integrating data from Open-Meteo and OpenWeatherMap. Key features include city search, detailed weather data, and hourly and 7-day forecasts.

Tech stack: JavaScript, HTML & CSS, 3rd Party API for client-side

Calculator Web App

August 2022

This project provides a simple and efficient tool for performing basic arithmetic calculations. Users can input numbers and select an operation to get accurate results.

Tech stack: JavaScript, HTML & CSS

Biograph Web App

August 2022

A biography web page is a website that displays a person's work, accomplishments, background and accomplishments.

Tech stack: HTML & CSS
